

Dear Applicant,

We would like to inform you that in your major the specialization is started after the first semester. The Admission Board makes a decision about the classification of the applicants but at the same time we would like you to give a statement about the specialization you would like to study most or least. We would like to draw your attention to the fact that the given specialization is launched only if there are enough applicants. Knowing the application numbers the University makes a decision if a specialization is launched.

Please make a ranking of the specializations by putting the one you would like to learn most in the first place.

STATEMENT

I, the undersigned _____

(personal code: _____) in **Fashion and Textile Design MA** based on

the above information, I would rank the following specializations in this order:

_____ Fashion design

_____ Textile design

Budapest, 2021
